

Sunshine - in Home Care and Assistance

Sunshine - in home care and assistance LLC, a mason based home care company offering high quality care for special need kids and their family. Our goal is to help kids with special needs achieve their potential and become active participants in their world.

Mission

The mission of Sunshine is to improve self assurance of youth and adult clients through independent supportive living. Sunshine's aim is to give our client positive directions that lead them to a safe place of normal functioning regardless of disabilities, race, religion and ethnicity. To carry out this mission we intend to offer improved living conditions, educational awareness and employment opportunities for the individual.

Our Commitment

- Everyone is treated with dignity and respect.
- Individuals live and learn as independently as possible in a supervised environment.
- Social, physical and emotional needs are addressed.
- Independence, self-determination, community participation and family involvement is Welcome.

Our Services

Sunshine - in home care and assistance LLC (Sunshine, LLC) is a Family-Owned, Independent Private Duty Home Care Agency. We provide non-medical, in-home care services to seniors and the disabled who want to stay home but need assistance with their personal activities of daily living, through our dedicated, compassionate and professional caregivers.

Our Caregivers

We have built a solid reputation of having the best caregivers available. We choose only those individuals who display the spirit required and attitude necessary to effectively help our clients. We do our homework. That means you can feel good about who's caring for you or a loved one.

Our caregivers are thoroughly screened to make sure they have the necessary skills, experience, knowledge and personality fit for each client they see. Every caregiver is drug screened and undergoes a criminal background and reference check.

In addition, Sunshine LLC employs each caregiver and we take care of all the necessary payroll and employment paperwork so you don't have to worry about it. Our caregivers are not independent contractors, they are employees. Some companies charge lower rates by making their caregivers contractors. This presents many risks to the client and family.

We treat our employees well, respect their rights and provide a professional working environment with competitive compensation for all employees. We value diversity and provide an environment that encourages the sharing of ideas for how to provide the best care for our clients. We exchange work experiences and good work methods inside our agency. The idea behind the company's employee-first philosophy: If you empower employees and treat them well, they'll put customers first.

Our Culture

At Sunshine LLC, we foster a culture of collaboration, integrity, and mutual respect with both our clients and employees. Our culture encourages dedication, creativity and innovative thinking. We always do what is right for the client's truly needed. We all share an entrepreneurial spirit and work in an environment that promotes company stability and staff retention.

At Sunshine LLC, we listen. Rather than promote our own culture, we consult with clients/clients family/ service coordinators to determine the clients need—and then we work together with caregivers to provide customized services, best fit clients' requirement.
